## LEMBAGA PENELITIAN DAN PENGABDIAN MASYARAKAT (LP2M)

Lembaga Penelitian dan Pengabdian Masyarakat (LP2M), awalnya terdiri atas dua lembaga yang berdiri sendiri. Kedua lembaga tersebut yakni Lembaga Penelitian (LP) dan Lembaga Pengabdian Pada Masyarakat (LPM). Melalui Surat Keputusan Rektor Universitas Hasanuddin selaku Ketua Senat Universitas No.2630/H4/0/2010 tertanggal 29 Juni 2010, kedua lembaga kemudian diintegrasikan menjadi satu lembaga, yaitu Lembaga Penelitian dan Pengabdian pada Masyarakat (LP2M) Universitas Hasanuddin.

The Research and Community Service Institute (LP2M) initially consisted of two independent institutions. Both the institutions are the Research Institute (LP) and the Community Service Institute (LPM). Through the Universitas Hasanuddin Rector's Decree as the Head of the University Senate No. 2630/H4/0/2010 on 29 June 2010, the two institutions were then integrated into one institution, namely the Research and Community Service Institute (LP2M), Universitas Hasanuddin.

Sekretaris LP2M  
*Dr. Abdul Rasyid Jalil, M.Si.*

Pengintegrasian ini dilakukan dengan pertimbangan bahwa kegiatan penelitian dan pengabdian masyarakat pada hakikatnya merupakan kegiatan yang tidak terpisahkan, dalam pelaksanaan Tri Dharma Perguruan Tinggi. Selain itu, pertimbangan efisiensi dan efektifitas pengelolaan sumber daya juga mendorong penyatuhan kedua lembaga di atas.

LP2M merupakan suatu lembaga yang layak dan memiliki kapasitas dalam menyelesaikan serta mengadvokasi permasalahan yang berkembang dalam masyarakat. Terutama yang berkaitan dengan pengaplikasian ilmu pengetahuan, teknologi, dan sains (Ipteks). Sebagai subsistem dari organisasi dan tata kerja Universitas Hasanuddin, LP2M dalam operasionalnya memanfaatkan sumber daya manusia maupun fasilitas-fasilitas lain yang ada dalam lingkungan Universitas Hasanuddin.

The integration is conducted with the consideration that research conducts and community services are essentially inseparable activities, in the implementation of the Tri Dharma of Higher Education Institutions. In addition, the integration of the two institutions considers the efficiency and effectiveness of human resource management.

LP2M is a decent institution and has the capacity to solve and advocate for problems that develop in the community. Especially related to the application of science, technology, and science (Ipteks). As a subsystem of the organization and a working procedure of Universitas Hasanuddin, LP2M in its operations utilizes human resources and other facilities within Universitas Hasanuddin.
